

MD SADIKUR RAHAMAN

✉ fahim99369@gmail.com ☎ 01629702711 🔗 Portfolio 🌐 sadikurrahman64 🗣️ sadikurrahmanfahim

Working at the intersection of game development, problem solving, and project execution. With experience in Unity, I contribute to building interactive experiences while working closely with artists, designers, developers, and clients to turn concepts into polished deliverables. My role often extends beyond development—understanding requirements, bridging creative and technical perspectives, and keeping ideas moving from discussion to implementation.

Professional Experience

Game Developer & Coordinator

10/2025 – Present

Dhaka, Bangladesh

- Contribute to development(Unity), supporting gameplay, UI, and implementation across ongoing projects.
- Work closely with 2D/3D Artists, UI/UX Designers, and developers to translate concepts and requirements into functional game experiences.
- Collaborate directly with clients to understand requirements, discuss progress, and align development with project objectives.
- Bridge creative, technical, and client-facing requirements within a small team.
- Coordinate tasks, priorities, and deliverables to maintain a structured development workflow.
- Troubleshoot project and implementation-related issues while supporting smooth communication across the team.

Operations Manager, Qiulin Technologies

03/2025 – 08/2025

Uttara, Dhaka,
Bangladesh

- Managed end-to-end operational activities including team management, client communication, and performance tracking.
- Worked directly under the CEO to support strategic planning and decision-making.
- Oversaw task distribution, workflow efficiency, and internal coordination across departments.
- Maintained strong client relationships and ensured timely communication and delivery.

Trainee, Riseup Labs

09/2024 – 11/2024

Uttara, Dhaka,
Bangladesh

- Completed training in game development using the Unity Engine.
- Learned the fundamentals of Unity and basic game development concepts.
- Gained introductory experience with C# scripting, gameplay setup, and working with game assets.

Internee, Object Canvas Technology

12/2023 – 01/2024

Darus Salam, Dhaka,
Bangladesh

- Completed an internship focused on web development using ASP.NET  MVC.
- Learned the basics of MVC structure, routing, and backend development.
- Assisted with simple tasks and updates in existing web projects.

Projects

Bang Blast

Repolished a block puzzle game by working on the full UI, adding time-based gameplay functionality, and implementing visual effects (VFX).

Dental Debt

Developed a hyper-casual dental game in Unity, implementing mechanics for 8 interactive tools, character selection, and a controller-based sequential tool system, with character artwork and animations provided by a 2D artist.

Jingle Word

Integrated assets into a Christmas-themed word puzzle game, designed the majority of assets using Figma, and implemented time functionality.

Pacman Genjam

Made remix of PAC-MAN in 3D to participate in crazy webgame gamejam(2024) in collaboration with a team memeber.

ExamArchive

Developed a full-stack web app for accessing SSC and HSC question papers by board, year, and subject, featuring dynamic browsing, Admin panel, PDF preview, and download with a clean, responsive UI.

DataVize

Built a Streamlit-based web application offering data preprocessing, visualization, and classification techniques using python libraries.

 Basic Skills

Programming Languages

C, C#, Java

Web Development

Html/CSS, JS, ASP.NET

Game Development

Unity Engine

Mobile App Dev.

Native Android(Java)

Database Management

SQL, Firebase

Design Tools

Figma, AutoCAD, Cisco Packet Tracer

Soft Skills

Teamwork, Communication, Adaptability

Languages

Bangla, English, Hindi

 Education

BSc in CSE, Green University of Bangladesh

CGPA- 3.43

2020 – 2024

Purbachal, Dhaka, Bangladesh

 Publications

Enhancing CNN Model by Incorporating Upscaling and Downscaling Techniques for Image Classification
